WORK EXPERIENCE

Principal Software Engineer
Pegasystems

07/2022 - Present   *Mindspace, Hyderabad*

Since 1983, Pega's AI-powered platform helps organizations automate workflows, personalize experiences, and modernize systems, driving the autonomous enterprise.

Achievements/Tasks

- As a Principal Software Engineer in the Platform Engineering team for Pega Infinity, I focus on resolving complex client-facing issues and delivering feature enhancements across UI and backend.
- I work extensively on platform-related issues using HTML, JavaScript, Java, Handlebars, and CSS, while also contributing to internal applications built with React and Node.js on AWS.
- I collaborate with cross-functional teams to deliver stable, regression-free solutions and handle backend enhancements in Java.
- I have also participated in Generative and Agentic AI hackathons, experimenting with AI integration into the product to improve functionality and user experience.
- Additionally, I drive initiatives around observability by implementing tracing, logging, and monitoring solutions to strengthen platform reliability and performance.

Application Development Team Lead
Accenture

07/2021 - 07/2022   *Raidurg, Hyderabad*

Accenture is a global professional services company with leading capabilities in digital, cloud and security.

Achievements/Tasks

- ***Projects: Withme Health and Verana Health (HealthCare Domains)***
- Worked on MIPS based web applications using React, Redux, JavaScirpt, HTML5, SCSS, CSS3.
- As a front end developer, I have implemented different types of reusable functional components in React using Redux with Sagas.

Senior Development Engineer
Pramati Technologies Private Limited

12/2020 - 06/2021   *Banjara Hills, Hyderabad*

Imaginea, part of Accenture - Imaginea is a product development and enterprise innovation services company.

Achievements/Tasks

- ***Projects: Ask Media Group and Verana Health.***
- Worked on web applications using React, Redux, JavaScirpt, HTML5, SCSS, CSS3.
